From the Factory

From Nicolas Chabbert,

A mid-summer TBM dream comes true at Oshkosh

EAA AirVenture Oshkosh once again lived up to its reputation as “the world’s greatest aviation celebration,” and I want to thank TBM customers for another impressive turnout at Wittman Regional Airport. All of us at Daher appreciate your enthusiasm, and we value the spirit of a tight-knit community unified in flying the TBM – which was clearly evident throughout this year’s Oshkosh gathering. In fact, we welcomed more visitors and TBM owners at the show than ever: 42 TBMs flew to Oshkosh (in addition to our display of two TBM 930s and one TBM 900), while more than 400 guests attended Daher’s annual barbecue. (...)

Fleet status

FLIGHT HOURS BY MODEL

Total TBM Fleet: 797

Total fleet time: 1,368,539 hours

Thanks for helping us keep our fleet data up-to-date

» [Submit fleet data](#)

Update your flight hours at least once a month and receive a TBM gift from DAHER at the end of the year!

Dear CAMP users: in order to obtain the full benefit of your service, the flight hours update may be easily done via your smartphone:

- 1 – Download the Apple App: [Icamp](#) from App Store or
- 2 – Connect to icamp.campsystems.com via your browser

Use your log-in in and password that CAMP systems provided to you at aircraft delivery.

Thank you for helping us.

TBM Pilot Profile – John Weber, SN1120

A former top executive of many leading industrial companies, John Weber, now devotes more time to his passion of flying high-performance sailplanes and very fast turboprop aircraft. As he took delivery of his third TBM, a brand new TBM 930, he described his lifestyle to the TBM eNewsletter. (...)

Support Corner

Support News

Dear TBM owners, operators and network members,

Summer is now behind us, but we look back with some wonderful memories. Once again, Oshkosh was a wonderful time shared with many of you. It provided the opportunity for one-on-one meetings, for in-depth discussions, feedback, and to move ahead with projects. For me, there is no other single place where all this can happen. (...)
